# Stand Components

## Plug Lamp Tip SSN 270

For use with low stands. The plug lamp tip fits directly into the segment tube on top of the stand and takes the place of the usual target mast. The target used is correspondingly low.

## Socket Lamp Tip SSN 270

For use over the mast on low or intermediate stands. The socket end fits over the top of the mast.

## Target Masts SSN 280

For Low Models 50-A and 51-A.  
Length: 1' 0<sup>5</sup>/<sub>8</sub>"

## Targets for 51-A SSN 240

## Connecting Rods for 51-A SSN 260

Model 11AN

Model 11TN
