Mr. Ray Matlock
Sr. Vice President Manufacturing and Engineering
Unitrac Railroad Materials, Inc.
P.O. Box 7098
Knoxville, TN 37921

Dear Mr. Matlock:

Acting on behalf of the Quality Assurance Committee, it is my distinct privilege to forward the enclosed Quality Assurance Program Certification, number QA-URMT acknowledging Unitrac Railroad Materials, Inc.'s participation in the M-1003 program, for QA Commodity Groups: B75 and B76.

Certainly without the support, cooperation and commitment of companies such as yours, the AAR Quality Assurance Program could not be successful.

Again, congratulations to your company and those personnel directly involved in achieving certification. I personally look forward to continuing the excellent working relationship fastened through your participation in the program. Hopefully, this certification will be proudly displayed for the benefit of both your employees and visitors to your company.

Sincerely,

A handwritten signature in cursive script that reads "Joy A. Cooke".

Joy A. Cooke
Manager, Quality Assurance
